EDUCATION

B.Tech in Computer Science and Engineering

Amrita School of Computing, Amrita Vishwa Vidyapeetham
CGPA: 8.05 (as of 6th semester)

Aug 2023 – Present

Coimbatore, India

Higher Secondary Education

Bharathi Vidya Bhavan
Percentage: 92.83%

Apr 2018 – Mar 2023

Erode, India

PROJECTS

[Anokha 2026 Frontend](#) — Frontend platform for a national-level technical fest

Jan 2026

- Contributed to the development of a scalable frontend platform using **Next.js**, **React**, and **TypeScript** in an Agile development workflow.
- Implemented authentication-aware UI flows and **role-based** dashboard rendering as part of the team.
- Built reusable, modular components following modern React patterns and clean separation of concerns.
- Collaborated with team members to ensure responsive layouts, accessibility-friendly UI.

[MedEase](#) — Cross-platform healthcare mobile application

Dec 2025

- Contributed to the development of a cross-platform mobile application using **Flutter**.
- Developed frontend screens for appointment booking, reminders, and health profile visualization.
- Integrated Firebase Authentication and Firestore for secure user sessions and data display.
- Collaborated with team members to ensure responsive UI behavior across multiple device screen sizes.

[StockNBills](#) — Inventory and billing web application for Rice Mills

Oct 2025

- Built an inventory and billing application with a REST-based backend using **Node.js** and **Express.js**.
- Designed RESTful APIs for products, customers, vendors, and invoices following standard HTTP methods.
- Modeled application data using **MongoDB** with **Mongoose** schemas and validation rules.
- Implemented **JWT-based authentication** and role-based authorization for secure access control.
- Implemented invoice generation and billing logic, including totals, taxes, and customer-specific records.

WORK EXPERIENCE

Intern - Shopify App Developer

Zofonix, Salem

Feb 2026 – April 2026

- Worked on **Shipofix**, an embedded **Shopify shipping application** using **Remix.js**.
- Developed merchant-facing UI using Shopify Polaris and App Bridge.
- Implemented dynamic multiplier pricing, slab pricing, and checkout shipping logic.
- Integrated Shopify Carrier Service APIs, Admin APIs, and webhooks.
